SUMMARY

5+ years designing digital products, the last four focused end-to-end on regulated financial products. Currently at Itaú Unibanco — Latin America's largest bank — designing equities and crypto investment experiences, where simplifying onboarding raised conversion by 15 percentage points in five months. I work from discovery to delivery: user interviews, usability testing, behavioral analysis and A/B testing, translating high-risk, data-heavy financial flows into experiences people can actually follow. Comfortable operating between product, engineering and business stakeholders, and contributing to design systems that scale.

EXPERIENCE

Itaú Unibanco

Product Designer

Aug 2025 — Present

Design lead for equities (renda variável) and crypto investment products at Latin America's largest bank, working end-to-end from discovery to delivery under real regulatory constraints. Increased crypto onboarding conversion by **15 percentage points in five months** by reducing cognitive load and optimizing key decision points through A/B testing and behavioral analysis. Designed and launched a recurring crypto purchase feature, enabling automated investing and improving long-term engagement. Turn high-risk, data-heavy trading flows into decisions people can follow: session analysis (FullStory) to find drop-offs, user interviews and usability testing to validate, high-fidelity prototypes in Figma, and contributions to a design system used across the product. Additional work under NDA — happy to discuss in conversation.

Bitybank

Designer (UX/UI)

Jan — Jul 2025

Designed acquisition and activation flows for crypto products, improving onboarding and conversion journeys. Increased user acquisition by 35% through data-driven experimentation across acquisition flows, landing pages and referral (MGM) strategy. Applied A/B testing and behavioral insights while collaborating with product, marketing and engineering to align growth strategy with user experience.

Quantum

Designer (UX/UI)

Jan 2024 — Jan 2025

Designed landing pages for different brands with a focus on conversion and performance. Conducted A/B testing and iterative improvements based on user behavior and campaign data, collaborating with teams to align business goals with user experience.

TopLine (US)

Designer (UX/UI)

Feb — Dec 2023

Created landing pages for product launches across different companies, focusing on user journey and conversion. Ensured consistency across touchpoints and collaborated with product and growth teams to deliver effective digital experiences.

AZ Blue

Designer

Jan 2020 — Aug 2022

Worked on web design and landing page creation for digital campaigns, focusing on layout, visual consistency, and user experience across web interfaces.

EDUCATION

FIAP

MBA in Future Centered Design

Oct 2024 — Oct 2025

UNIVAP

Bachelor's Degree in Advertising

2018 — 2021
